Spine surgeon backs least-invasive method

Contributed photo

Dr. Navin Subramanian operates Orthopaedic Associates LLP in Bellaire.

Dr. Navin Subramanian operates Orthopaedic Associates LLP in Bellaire, the oldest ongoing orthopedic group in Houston. He says most spinal conditions can be treated without surgery, but when it is necessary, he performs them at Humble Surgical Hospital. "I at-tempt to use the

least-invasive techniques available," he said. "This generally allows most patients a quicker return to both work and enjoyable activities."

Details

WHAT YOU'LL FIND:

A team that specializes in minimally-invasive spine surgery. The Orthopaedic surgeons have expertise in both nonsurgical and surgical management of disorders of the spine.

WHAT THEY'RE SAYING:

"(We're passionate about) providing exceptional quality of care, educating patients about their ailments, providing treatment options, and working with the patient in order to formulate a treatment plan that most fits their condition."

— Dr. Navin Subramanian
